PROFESSIONAL SUMMARY

Full-Stack Developer with a strong problem-solving mindset and hands-on experience building scalable web applications. Currently working at AnantNetra Technologies, contributing to the development of a scalable SaaS platform across the full stack. Experienced in building responsive interfaces with Next.js and TypeScript and developing backend systems with Nest.js, PostgreSQL, Docker, and Redis-based background queues. Focused on clean architecture, system reliability, and writing maintainable, production-ready code.

EXPERIENCE

Full Stack Developer Intern, AnantNetra Technologies Private Limited — June 2026 - Present

- Developed responsive web applications using Next.js, Tailwind CSS, and shadcn/ui, with a focus on performance and SEO optimization.
- Built secure backend APIs and managed database integrations using Node.js, Express.js, Nest.js, PostgreSQL, and Prisma.
- Implemented background job processing and asynchronous task queues using Redis and BullMQ for reliable data management.
- Containerized applications with Docker and managed continuous deployment on Vercel and Render for smooth production releases.

TECHNICAL SKILLS

- Frontend: Next.js, React.js, TypeScript, JavaScript, Tailwind CSS, ShadCN UI
- Backend: Node.js, Express.js, Nest.js, Redis, BullMQ,
- Database: MongoDB, Mongoose, PostgreSQL, Prisma ORM
- Libraries: TanStack Query, RTK Query, React Hook Form, Axios, NextAuth, Firebase
- DevOps & Tools : VS Code, Git, GitHub, CI/CD, Docker, GitHub Copilot, AI Integration, AI Agents

PROJECTS

HelpLink - MERN Stack Disaster Relief Platform — Live Site Client Server

Tech Stack: Next.js, TypeScript, Tailwind CSS, RTK Query, Node.js, Express.js, MongoDB

- Built a full-stack disaster relief platform connecting people in need with donors for support.
- Integrated bKash and SSLCommerz payments with secure authentication and REST APIs.
- Implemented AI-based urgency detection and a chatbot for real-time user support.

Adoptly - MERN Stack Pet Adoption Platform — Live Site Client

Tech Stack: Next.js, Tailwind CSS, TanStack Query, Firebase

- Built responsive Home, Pet Listing, and Pet Details pages with reusable components.
- Integrated REST API for dynamic pet data and managed state with TanStack Query
- Collaborated with team using Git and GitHub for feature development

HealthCare - Doctor Appointment System — Live Site Client And Server

Tech Stack: Next.js, Tailwind CSS, NextAuth, MongoDB

- Built a doctor appointment booking system with authentication and secure access
- Implemented appointment booking with online payment integration for consultation fees
- Developed doctor filtering system by name, department, and specialization

EDUCATION

Honours in Political Science, Pakerhat Govt. College — 2026 - Present

COURSES AND CERTIFICATIONS

Complete Web Development Course With Jhankar Mahbub | Certificate

LANGUAGE

Bangla (native) | English (comfortable)
